Decision of the Committees

Please inform your co-proposer(s)

LS-2548

"First combined nano x-ray phase contrast and fluorescence tomography
of human lung tissue samples impacted with asbestos fibers"

| Beamline | Round | Beam time allocated |
|----------------|--------|---------------------|
| ID16A-NI (C07) | 4/2016 | 15 shift(s) |

Review Committees' comments (if no comment appears from a committee, none has been given):

- C07 : Very interesting proposal fully exploiting the 3D capabilities, however the authors should have better commented on the possible effects of sample preparation.

For up to date information, please consult our Website (<http://www.esrf.eu>) under "Users and Science/User Guide" and then "Applying for beamtime".

For the list of committees and the beamlines for which they review proposals, consult:

<http://www.esrf.fr/UsersAndScience/UserGuide/Applying/societal-themes-scientific-areas-and-review-committees>.

If you have forgotten your personal password, please note that you can retrieve it on the login page of the User Portal, by selecting the option "I have lost my login or password".

If you have been allocated beam time, please contact the scientist in charge of the beamline to arrange the scheduling of your experiment. Note that while he/she will try to accommodate your preferences, beamlines have complex schedules and you may be required to come for specific dates. Any appeal should be made formally in writing to the Research Directors.
